## ABOUT SOUND IMAGE PRODUCTIONS

The reliable Audio & Visual solutions provider since 1999, Sound Image Productions delivers world-class AV solutions to businesses, events, concerts, product launches, and is the premiere resource for a complete audio, video, lightings and structures equipment provider to carry through any sorts of events. Fully equipped with the latest technology and widest range of sound, intelligent lightings, projectors, large screens and trussing systems, **SOUND IMAGE PRODUCTIONS** is the one-stop solution to any small to large scale event show productions. Our AV solutions range from topnotch DJ consoles, (Yes! We have the CDJ 2000), Dataton Watchout Systems (A panoramic multimedia software), and are armed with the full capability for impressive and versatile concert and event set ups that will produce an entertainment spectacle to impress and delight any clients and audiences.

**SOUND IMAGE PRODUCTIONS'** experienced & well-trained team provides the technical infrastructure required for sound reinforcements and intelligent lighting systems in road shows, dinner and dance events, product launches, special events, conferences, festivals, dance parties and even large scale concerts.

From set-up to show, **SOUND IMAGE PRODUCTIONS** relieve any sort of manpower issues by providing a complete package of set up & tear down crews, lighting programmers, sound engineers, event deejays, videographers, multimedia animators, photographers, event marshals and technical consultancy.

We have successfully rendered our services to:
